

To Whom It May Concern:

Reference: RALEIGH HOMES
Builder: Tory Smith

Our home was built by RALEIGH HOMES during 2003 /2004. Builder, Tory Smith, coordinated all aspects of the project with us. We were never left out of the building process. We were encouraged to view progress at various stages and ask questions, if we had any.

Selections were available for a multitude of items. Mr. Smith and his staff assisted in all aspects of the selection process. They made sure items were available and, more importantly, ready at the appropriate time for installation.

After closing on our home, Mr. Smith, checked on us several times to see if anything was required. Even after a year, if something was needed, Mr. Smith addressed issues promptly and satisfactorily.

We would encourage prospective buyers to consider the floor plans by RALEIGH HOMES. We have a great home and believe you will enjoy the style and comfort of these designs.
